Dresden, 23-January-2023

### Confirmation

Dear Professor Bugrov,

this is to confirm that Professor Dr. **Yuliya MISHURA**, Head of the Department of Probability Theory, Statistics and Actuarial Mathematics at Taras Shevchenko National University of Kyiv completed an internship programme

from 01 May 2022 until 30 June 2022

at the Faculty of Mathematics, Department of Mathematical statistics of Technische Universität Dresden, Dresden, Germany.

As a result of the training, Prof. Mishura completed the following activities and obtained the following achievements:

- she acquired new key competences in research activity;
- she established scientific contacts with a group of researchers at Technical University of Dresden working in the theory and statistics of stochastic processes;
- she has initiated a joint research project, resulting in the preparation of a paper;
- she has contributed a talk at the departmental research seminar;
- she has been introduced to the organization of the research work of teachers and students at Technical University of Dresden;
- she has observed teaching methods for master and PhD programmes in Mathematics.

These activities add up to a total of 210 hours or 7 ECTS credits.

Professor René Schilling  
(Host and coordinator of the training/research activities)
